Apply clean sand . . .

Blend in Perfect Footing . . .

Level and fluff the surface . . .

Providing a riding surface with . . .

PERFECT FOOTING all year round

PERFECT FOOTING

the correct application

PROEQUUS

fEI International & World Cup Championships

... the Perfect Footing solution for all classical equitation riding surfaces.

Attributes:

- retains elasticity and resiliency - easily "catch air"
- improves water drainage †
- dust-free, *without constant watering* †
- stable underfoot: anti-skidding agent to increase traction ‡
- long-lasting, *even in outdoor arenas or uncovered surfaces*
- suitable for all weather and climates, *all year round*
 - † All grades will improve drainage during rainfall, while retaining the "dampened sand" attributes afterwards.
 - ‡ For Western-style riding, the anti-skidding agent is omitted.

Advantages:

- **Always ready for riding!**
- Because of Perfect Footing's elasticity and "bounce":
 - ⇨ Perfect Footing protects sinews and joints,
 - ⇨ while reducing the risk of injury †, and
 - ⇨ reducing veterinary and pharmaceutical costs, while
 - ⇨ prolonging the career of performance horses.
 - † Especially beneficial in performance or working horses.
- Lower maintenance costs, due to its long life span.

Perfect Footing™ components are supplied:

- Already mixed in the grade appropriate for your riding style, or
- with the components delivered separately,
- allowing you to customize your own special blend, *creating the Perfect Footing Surface for your riding needs.*

The appropriate Footing surface for every discipline:

- Equitation & Dressage - high traction, bounce and resiliency.
- Hunting/Jumping - superior flexibility and traction.
- Fine-tuning for outdoor arenas or indoor riding halls.
 - Customizable for special sand-mixes, using special blends of **Pro-Equus™ SandVlies and SandFibre**
- Walking, Trotting, Tolting, Canter or Gallop lanes.
- Training: Coach, Cart, Chariot or Surrey driving
- Racing: Practice or training tracks that are never too muddy to use.

Additional uses and applications for:

- Longé lines, lunging rings, training and round pens.
- Covered hot walkers.
